PROJECTS

Symantic
- This is a Netflix-inspired project where you can see ratings for newly released
- And upcoming movies, with links, included to check out the trailers to the movies you're interested in.
- In this project, you will find a categories directory, search functionality, and the ability to save your favorites as well as movies you have yet to see

Fresh-Zest
- This is a Mini E-Commerce Project Based on React, Redux & Django. It can be used as a Prototype for an Online store.
- For Backend we have used Django web framework. Usernames, Emails And Passwords for Sign Up And Sign In Pages are stored using Django framework.
- For Frontend we have used React And Redux to make our codes more Scalable and Flexible.
- It allows User to look for different flavoured of Lemonades Online. User Can Search, Add-To-Cart/ Purchase for lemonades using Lemonade Project.

BudgetBox
- This project is an online ledger where you can track your expenditure and income at a glance, and effectively monitor your spending and save time from the tedious process of bookkeeping.
- We have diagrammatic and graphical representations to enhance your understanding.
- This gives you the ability to sync and manage your entire bookkeeping in a single app.
